WHAT WE PRODUCE: OUR PRODUCTS

JACKETS

SWEATSHIRTS

PANTS

SHIRTS

DOWN JACKET

T-SHIRT

DRESSES

SKIRTS

Over the years we have developed an efficient organization.

We improved ourself and our efficiency, in fact the products we realize are a wide variety.

Our experience allow us to meet all the customer requests.

CAD DEPARTMENT

The office is equipped with Haute Couture workstations and we have *software* for the creation of sketches and patterns *updated* and complete for the various requests. In the **Cad office** the technicians obtain a rapid and precise realization of the models and developments. Our pattern makers are not limited to carrying out the ideas of the customer, but through a continuous dialogue they are a fundamental point of connection for the *improvement* and *refinement* of the pattern, thanks also to the pattern digitalization programs.

LABORATORY

After completion of the pattern, in internal laboratory **prototypes** are realized with innovative cutting machines equipped with *automatic* or *manual placement* depending on the needs of the customer. This operational phase allows you to evaluate the fit of the garment and its more detailed characteristics in order to develop the garment with the perfect fit. At this point we move on to the production of the **samples** with the material selected for the production.

PRODUCT DEPARTMENT

The highly qualified staff searches for **fabrics and materials:** organic cotton, modal, tencel, flannel, fleece, dri release, polyester, polyamide and eco-friendly fabrics. We work with suppliers of **ecological** and **eco-sustainable fabrics.**

During the process we support the customer with a person who supervises, controls and manages the production with whom you can constantly update yourself on the progress.

QUALITY CHECK AND IRONING

Once made, the garments are **check** and iron on site: professional experts evaluate the finish and quality of the garments. Following the internal **ironing service**, equipped with presses for outerwear, topper mannequins and universal ironing boards, suction and blowing, finally the garments are packaged and delivered to the customer all over the world (we have **global shipping**).

WORDS TO INSPIRE YOU

“CON. FI. FASHION SERVICE’S MISSION IS TO BRING THE CLIENTS’ IDEAS TO LIFE, ACCOMPANY THEM DURING THE PROCESS WITH OUR PASSION FOR GOOD WORK, COMBINE TRADITION AND INNOVATION, OPTIMISE COSTS AND WORKING HOURS. TO DO SO, WE OFFER OUR ADVANCED SKILLS, OUR PRODUCTION TECHNIQUES, AND THE ARTISANAL ABILITIES OF OUR SPECIALISED TEAM.”
